SKILLS

- Frontend: ReactJS, TypeScript, JavaScript, HTML, CSS
- Backend: ASP.NET Core MVC, Node.js
- Databases: SQL Server, MySQL, MongoDB
- Tools & IDEs: Git, Postman, Visual Studio Code, SQL Server Management Studio
- Others: RESTful APIs, Entity Framework Core, Authentication (JWT, ASP.NET Identity)

PHAN NGUYEN HOANG NHAN

FRONT-END DEVELOPER

PROFILE

I am an Information Technology student specializing in Front-End development, with a strong focus on building modern user interfaces, optimizing user experience, and enhancing application performance. I have a solid foundation in Object-Oriented Programming (OOP), database systems, and hands-on experience with React and TypeScript through real-world projects. I am eager to grow in a professional environment, continuously improve my skills, and within the next 3-5 years, become a Mid-level Front-End Developer, with the goal of leading technical initiatives or contributing to frontend architecture design.

PROJECTS

SWEBI COFFEE - Coffee E-commerce Website *Oct 2024 - Dec 2024*

Front-End Developer | Team size: 2 - 3

Tech: ASP.NET Core MVC, HTML, CSS, JavaScript, SQL Server

- Developed user interfaces for a coffee and tea e-commerce website, ensuring responsiveness across multiple devices
- Integrated backend APIs to display product, cart, and order data
- Implemented client-side logic: add/remove items, update quantities, and form validation
- Collaborated with backend team to define API contracts and handle data-related issues
- Debugged and fixed UI/UX issues, improving overall user experience
- Participated in source code management using Git (branching, merging)

HTSALON - Hair Salon Booking System *Apr 2025 - Jul 2025*

Front-End Developer | Team size: 3 - 4

Tech: ReactJS, TypeScript, ASP.NET Core, SQL Server

- Built booking and service management interfaces using React
- Applied component-based architecture for code reusability and maintainability
- Consumed APIs and handled asynchronous data using async/await
- Managed client-side state and optimized UI rendering performance
- Collaborated with backend team to test and handle API-related issues
- Participated in code reviews and improved overall code quality within the team

EDUCATION

Ho Chi Minh City University of Technology (HUTECH) 2022 - 2026

Major: Software Engineering

GPA: 3.2 / 4.0

Technical Knowledge:

- Basic understanding of Design Patterns (Singleton, MVC, Repository)
- Software Architecture concepts (MVC)
- Database design (SQL Server)
- Object-Oriented Programming (OOP)
- Working with RESTful APIs
